Pre-Class Mise en Place and Notes

- Please gather all ingredients prior to class if you will be cooking along.
- It is helpful to organize the ingredients by recipe on rimmed baking sheets.
- Feel free to pre-measure ingredients, but it is not necessary.
- We encourage you to prep all your ingredients before class as it will allow you to have more time to listen and watch the instructor.

Citrus and Sage Mimosa

1. Chill the Champagne.
2. Wash and dry the sage.
3. Prepare the simple syrup, steep with sage and allow to cool completely. Strain sage from syrup.

Hash browns

1. Preheat the oven to 300°F.

CLASSIC EGGS BENEDICT

Yield: 4 servings

Hollandaise Sauce:

1/4 cup dry white wine

1/4 cup white wine vinegar

1 medium shallot, minced

1 teaspoon black peppercorns

4 egg yolks

6 ounces unsalted butter, melted plus more for muffins

Kosher salt and freshly ground black pepper

4 English muffins, split

8 slices Canadian bacon

8 large eggs

2 tablespoons distilled white vinegar

Cayenne pepper for dusting

- 1. To prepare Hollandaise sauce:** To a medium sauté pan set over medium-high heat, add white wine, vinegar, shallots and peppercorns; simmer until almost completely dry. Take the pan off the heat and cool reduction to room temperature. Strain reduction through a fine-mesh sieve into a medium stainless steel bowl. This should yield about a tablespoon of liquid.
- To a medium saucepan set over medium heat, simmer two inches of water. Once reduction has cooled, whisk in egg yolks and place the bowl over simmering water, whisking constantly until thickened and warm. To avoid overcooking the mixture, be sure that the water is just barely simmering with no visible signs of surface action, just steam rising.
- As egg yolks warm, they will increase in volume. If they become too warm and begin to coagulate around the sides and the bottom of the pan, remove them from the heat and allow them to cool slightly. When yolks have tripled in volume and the mixture thickly coats the back of a spoon, remove the bowl from simmering water. Stabilize the bowl by setting it on a towel. Add the butter in a slow, thin stream, whisking constantly to incorporate. The sauce will begin to thicken as more butter is added. If the sauce is too thick, add a little water or lemon juice.
- 4. How to fix broken emulsion:** If the sauce starts to break, try adding a small amount of water and whisk. Once sauce comes back together and is smooth, begin adding more butter. If that doesn't work, try cooking another egg yolk over simmering water until thickened then whisk broken hollandaise gradually into the egg yolk.
- Taste and adjust seasoning with salt and freshly ground pepper. Serve sauce immediately or hold sauce at a temperature of 145°F for up to two hours.

6. **To poach eggs:** Fill a medium bowl halfway with warm water. To a 4-quart saucepan set over medium heat, add 2 quarts of water and distilled vinegar; bring to a gentle simmer. Break 1 egg into a small dish. Slide the egg into the saucepan and immediately push the white around the yolk with a slotted spoon to form an oval shape. Poach the egg for 2 minutes for runny yolks, or 3 to 4 minutes for firm yolks. Immediately transfer the poached egg to bowl with warm water. Repeat with remaining eggs. Please note that multiple eggs can be poached at the same time; however, for more perfect eggs, poaching 1 to 2 eggs at a time is recommended. To serve, lift eggs from warm water with a slotted spoon, 1 egg at a time and dab back of the spoon onto a double layer of paper towels to drain off excess water. Trim any rough edges, if desired.

7. **To prepare bacon:** To a skillet set over medium heat, add oil. When the oil is shimmering, lightly cook the Canadian bacon until slightly crisped, 2 minutes per side. Using tongs, transfer bacon to a plate, cover with foil and keep warm.

8. **To toast the muffins:** Turn the oven broiler on high and position a rack in the top third of the oven. Transfer English muffins to a rimmed baking sheet and broil until golden brown, about 2 to 3 minutes. Using a silicone pastry brush, brush toasted muffins with butter. Set aside and tent with foil to keep warm.

9. **To serve:** Place warm, buttered muffin halves on a plate. Top with a slice of Canadian bacon. Place a poached egg on top of the bacon and ladle the sauce over the top. Serve with a dusting of cayenne pepper.

Recipe variations:

- Substitute Canadian bacon for ripe avocado slices, sliced tomato, smoked salmon, or lump crabmeat.

HASH BROWNS

Yield: 4 servings

1 pound Yukon Gold potatoes, peeled, grated
1 small yellow onion, grated
6 tablespoons unsalted butter, melted, divided
Kosher salt and freshly ground black pepper

1. To a large mixing bowl, add grated potatoes and cover with cold water. Drain in a colander, rinse and repeat until the water runs clear. Transfer to a clean dish towel and squeeze all the water from the potatoes. Place potatoes in a dry bowl, add 3 tablespoons of melted butter and grated onion, mix to combine. Season with salt and pepper. Thoroughly combine.
2. To a large nonstick skillet set over medium heat, add enough butter to cover the bottom of the pan. When butter is hot, add potatoes to the pan in an even layer. Cook until crispy and golden, about 4 minutes. Reduce heat to medium-low and using a spatula, turn potato hash over, adding more butter if needed. Sauté until golden-brown on the other side, about 5 minutes.
3. Serve hash warm or place it on a rimmed baking sheet in an oven set to 300°F to keep warm until serving.

Recipe variations:

- Shape into 3" pancakes and serve with crème fraîche and smoked salmon.

CITRUS AND SAGE MIMOSA

Yield: 1 serving

Sage simple syrup (makes 3/4 cup)

1/2 cup granulated sugar

1/2 cup water

1/2 cup fresh sage leaves, plus more for garnish

2 ounces freshly squeezed grapefruit or grapefruit juice, chilled

Angostura bitters

3 ounces Champagne, prosecco, or sparkling wine of choice, chilled

1. **To prepare the simple syrup:** To a small saucepan set over medium heat, heat water and sugar until sugar has dissolved and mixture begins to simmer. Remove from heat, stir in the sage and let steep for 1 hour. Cool completely. Pour simple syrup through a fine-mesh strainer into a clean container. Discard sage.

2. To a cocktail shaker, add a handful of ice, 2 ounces of grapefruit juice, 1 ounce of simple syrup and 2 to 3 dashes of bitters. Shake until chilled, about 20 shakes. Strain into a chilled champagne flute or coupe, then top with champagne. Garnish glass with fresh sage leaves

Recipe variations:

- Substitute grapefruit juice with orange, peach, or mango juice if you desire.
- Simple syrup can be kept in a food storage container in the refrigerator for up to 1 month.
- Non-alcoholic sparkling wine or “no-secco” can be substituted for sparkling wine.
